

ACCEPTABLE INTERNET/NETWORK USE AGREEMENT

The Garwood Board of Education recognizes that the Internet and a school-wide computer network are important resources in the delivery of curriculum and instruction. Because it is important to understand what constitutes appropriate use of this technology in a public school setting, all pupils and their parents/guardians are asked to review, discuss, and sign this agreement.

Student's Responsibilities:

1. I understand that independent student use of the Internet/school-wide network is a privilege, not a right, and may be taken away at any time if I do not follow school rules and use them in a responsible manner.
2. I will be polite and respect the rights of others. I will not harass, insult, or attack others. I will not access or send improper or profane language or pictures.
3. I will not use the school's network in a way that would disrupt its use by others.
4. I will not share personal information (including full name, address, or telephone number) or use an address, mailbox, site or file that belongs to someone else.
5. I will not take part in any activity that requires the user to buy something or purchase an item by giving a credit card number.
6. I will obey the United States' copyright rules, especially when downloading information.
7. I will report misuse of the Internet or computer network to a teacher, or other school adult as soon as possible.

I agree to follow the rules listed above.

Parent/Guardian Review and Permission:

I have reviewed the information in this agreement with my child and have discussed with him/her the consequences of not making appropriate use of the Internet and computer network during supervised school activities.

I am aware that there are potential dangers associated with the posting of personally identifiable information on a web site since global access to the Internet does not allow the school to control who may access such information. These dangers have always existed; however, schools do want to celebrate children and their work. With my permission, the school may place my child's photo/image and name on its website. However, the school may not release any personally identifiable information, which includes student name, photo or image, residential addresses, e-mail address, phone numbers and locations and times of class trips.

Check one of the following choices:

- I GRANT permission for a photo/image that includes my child's first name to be published on the school district's website/social media accounts.
- I DO NOT GRANT permission for photo/image that includes this student to be published on the school district's website/social media accounts.

Your permission will remain in effect until your child graduates and or leaves Lincoln school unless changes are made by you in writing.
