Dear Parent or Guardian:

New Jersey Law requires each student with Asthma in our school district to have an Individual Emergency Asthma Treatment Care Plan completed by your physician. This Treatment Plan will be utilized in the event your child has an asthma flare-up at school. Please sign the bottom of the form and take the form to your child's physician for completion.

Dear Physician:

NJ state law states "that each student authorized to use asthma medication or a nebulizer pursuant to N.J.S.A. 18A:40-12.3, have an asthma treatment plan prepared by the student's physician, which shall identify at a minimum, asthma triggers and an individualized healthcare plan, pursuant to N.J.A.C. 6A:16-2.1(a), for meeting the medical needs of the student while attending school or a school-sponsored event."

Your patient has been identified to require an Individual Asthma Emergency Treatment Plan that will be utilized in the event your patient has an asthma flare-up while at school. To simplify the paperwork, we are supplying an Asthma Action Plan Form created by the NYDOH for your review. If you are interested in using this plan, please complete the appropriate sections and return the form. If this plan is not acceptable, please submit an alternate plan which contains information regarding known asthmatic triggers, current medication and emergency treatment instructions.

If you have any questions, please contact the school nurse at the student's school.

Sincerely,

Ronald M Frank, MD FAAFP
School Medical Inspector
